| Standard Deviation | | 0.47 |

# Open Ended Questions

## Instructor

**Please provide comments or suggestions about the GSI**

| Comments |
|---|
| Pretty good teacher. |
| Great GSI! He was able to explain problems and concepts well and answer student's questions. Only criticism is that he explains problems so thoroughly that we often do not get through many questions on the worksheet, which is always a tradeoff, but sometimes going through more questions can be more helpful. |
| Leads great discussion section, I'd recommend deviating a little more from worksheet solutions and provide more conceptual intuition but overall very solid teacher. |
| Maybe go over the whole questions at once instead of subparts (and obviously give more time in gaps to accommodate) But definitely explained all problems well. |
| Sometimes if a student asks questions that are less relevant to the material or were covered in the past, it may be better to ask them to wait until office hours than to try to answer the question. |
| Great mini–lectures, helpful walkthrough of the discussion worksheet. |
| Joey was by far the best TA I have ever come across. A splendid teacher, an awesome instructor, and the best explainers. |
| Very helpful with understanding the material |
| His discussion was really good! Hopefully would've kept going if not for the lockdown :( |
| Identifies what is important and also shares his perspective well. |
| love it when you show all the steps. could get lost if not. wished we had you the whole semester. |
| Nice piazza posts |
